Election/Restrictions

1. Claims 1-6 are allowable. The restriction requirement between species, as set forth in the Office action mailed on 03/06/2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ryan B. Chirnomas on 11/8/06.

The application has been amended as follows:

IN THE CLAIMS

In claim 1 lines 1-4 has been replaced with --A breather system for a power train of a vehicle comprising:

An electric motor and a gear box connected to the electric motor;

A common case wall adapted to form both a part of a motor case of the electric motor and part of a gear case of the gear box;--

In claims 2-6, line1 "apparatus" has been replaced with --system--.

3. The following is an examiner's statement of reasons for allowance: The prior art neither discloses nor renders obvious the claimed combination comprising: an electric motor and a gear box connected to the electric motor; a common case wall adapted to form both a part of a motor case of the electric motor and part of a gear case of the gear box; a third breather path provided for communicating with both the first and second breather paths at an upper portion of the common case wall, and further communicating with the atmosphere.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
